

# HELLENIC STATISTICAL AUTHORITY

# **GREECE IN FIGURES**

April - June 2021

#### **FOREWORD**

The Hellenic Statistical Authority (ELSTAT) through the quarterly publication **Greece in figures**, published in both the Greek and English languages, presents statistical data providing an updated demographic, social and economic picture of Greece in a clear and comprehensive manner.

The publication **Greece in figures** is intended for users of statistics who seek to have a comprehensive view of Greece, on the basis of the most recent statistical data. The statistical time series included in this publication are, mostly, compiled by ELSTAT. Furthermore, for comparability reasons, the publication also presents, by theme, selected tables with statistical data of EU Member States.

The publication will be updated with the most recent data on a quarterly basis and will be posted on the portal of ELSTAT on the first Wednesday of January, April, July and October.

For more information on the data and statistics provided in **Greece in figures**, please contact the Division of Statistical Information and Publications of ELSTAT (tel: +30 213 1352301, +30 213 1352021, e-mail: data.dissem@statistics.gr).

We welcome any suggestions and recommendations on the content of the publication.

Athanasios C. Thanopoulos
President of ELSTAT

#### **NEW AND REVISED DATA IN THIS ISSUE**

Chapter 1: Territory and climate New: Table 6

Chapter 2: Population New: Table 12

Chapter 3: Economic data New and revised: Tables 1, 2a, 3a, 4b, 7, 7a, 8, 15, 16 New: Tables 4a, 9, 11 Revised: Table 6

Chapter 4: Agriculture, livestock, fishing New and revised: Table 7 New: Table 6 Revised: Table 11

Chapter 5: Manufacturing Revised: Table 4

Chapter 6: Construction New: Tables 2, 3 Revised: Table 4

Chapter 7: Trade New and revised: Tables 1, 2, 3, 9 Revised: Tables 4, 5, 6, 7, 8

Chapter 8: Transport New: Tables 2, 3 Revised: Tables 1, 4

Chapter 9: Labour market New and revised: Table 10 New: Tables 1a, 5a, 6a, 7a

Chapter 11: Poverty-inequality New and revised: Table 6 New: tables 1, 2, 3, 4, 5

Chapter 12: Education New and revised: Table 7

Chapter 13: Health New: Tables 1, 2

Chapter 15: Culture - Tourism New and revised: Tables 1, 4, 5, 7

8. Demographic indicators <sup>(1)</sup> , 2015 - 2019						
	2015	2016	2017	2018	2019	
Age dependency ratio	55.2	55.9	56.5	56.9	57.3	
Ageing ratio	145.5	148.3	150.3	152.5	155.0	
Mean age of mother at birth	31.3	31.3	31.5	31.5	31.7	
Total fertility rate	1.3	1.4	1.3	1.3	1.3	
Total mortality rate	11.2	11.0	11.6	11.2	11.7	
Infant mortality rate	4.0	4.2	3.5	3.5	3.7	

(1) Age dependency ratio: the ratio of the number of economically non-active persons (aged 0 - 14 and 65 years and over) compared with the number of economically active persons (aged 15 - 64 years).

Ageing ratio: the number of persons aged 65 years and over per hundred persons under the age of 15.

Total fertility rate: the average number of living children that a woman will give birth to over the course of her lifetime (provided that during her reproductive age, the fertility conditions prevail by age of the reference year). The total fertility rate is used in order to determine the level of replacement of the generations, which, in developed countries is considered to be 2.1. Total mortality rate: the number of deaths per 1,000 people.

Infant mortality rate: the number of children dying at less than 1 year of age divided by the number of live births that year. The ratio is expressed by 1,000 live births.

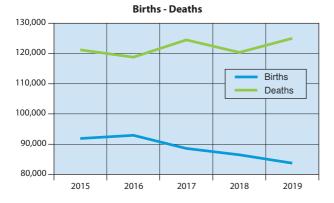

9. Marriages by type(1). Registered partnerships, 2015 - 2019						
	2015	2016	2017	2018	2019

<sup>(3)</sup> For the years 2014, 2016 and 2019, the impact of the support to financial institutions has been positive for the General Government balance. This is due to the fees accruing on the inter-bank lending guarantees and the bond loan scheme and the revenues from bank preference shares, being greater than the expenditures accrued. For the remaining years, the expenditures of the support were larger than the related revenues.

<sup>(1)</sup> General Government primary balance is defined here as General Government balance (according to ESA 2010) minus interest expenditure of General Government entities to other sectors. The effect of support to financial institutions is included in this measure of the primary balance. The measure of the primary balance presented here differs from the definition of primary balance used under the Economic Adjustment Programme for Greece.

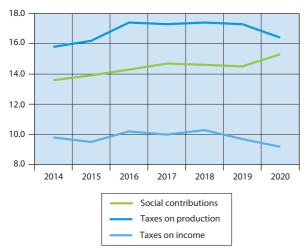

<sup>(2)</sup> Debt as defined in the Maastricht Treaty.

<sup>(4)</sup> The support to the financial institutions includes the on-going revenues and expenditures associated with interventions starting from 2008, in addition to new revenues and expenditures that arose during the years 2011 - 2019 for the banks' resolution and the recapitalisation of the four core banks.

Source: Bank of Greece.

- (1) As of December 2016, the Consignment Deposits and Loans Fund is excluded from MFIs as the institution has been reclassified from the financial sector to the General Government sector. As of March 2017, e-money institutions are included in the domestic balance sheet. As of March 2019, deposits and repos of shipping companies, which have their registered office abroad, are no longer included in the deposits of the domestic economy. Moreover, as of March 2019, loans to shipping companies, which have their registered office abroad, are no longer included in credit to the domestic economy.
- (2) Revised data: as of June 2010 for oMFIs and as of June 2015 for the Bank of Greece, "Capital and reserves" includes current year results and valuation adjustments. The revision was triggered by a recommendation of the relevant Eurosystem Working Group.
- (3) As of November 2017, Capital and reserves include the capital endownment of foreign branches operating in Greece.
- (4) Greek contribution to euro area M3.

- (1) (+) increase (-) decrease According to the new BPM6, an increase /decrease of assets receives a positive/negative sign and an increase/decrease of liabilities receives a positive/negative sign.
- (2) (+) increase (-) decrease According to the new BPM6, an increase /decrease of reserve assets receives a positive/negative sign.
- (3) Reserve assets, as defined by the ECB, only include monetary gold, the reserve position at the IMF, Special Drawing Rights, and the Bank of Greece's claims in foreign currency on residents of countries outside the euro area. Conversely, reserve assets do not include claims in euro on residents of countries outside the euro area, claims in foreign currency and in euro on residents of euro area countries, and the Bank of Greece's participation in the capital and the reserve assets of the ECB.

### **Construction**

<sup>(1)</sup> Any kind of extraction of energy products from natural sources to a usable form is called primary production. Primary production takes place when the natural sources are exploited, for example in coal mines, crude oil fields, hydro power plants or fabrication of biofuels. Transformation of energy from one form to another, like electricity or heat generation in thermal power plants or coke production in coke ovens is not primary production.

### \* = Provisional data.

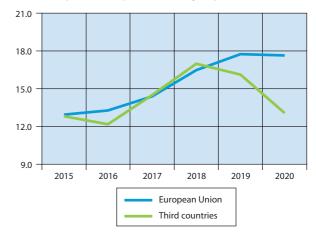

General remark: Wherever necessary, the data have been rounded up, thus, a slight difference may occur between the sum of the figures and their total.

- (1) International Trade in Goods Statistics have been revised for the years 2010 2018. The revision of the relevant data series was implemented by virtue of EU Regulations 96/2010 and 113/2010. The revision concerns the products under section "Machinery and transport equipment" of the Standard International Trade Classification (SITC 7), especially the arrivals-imports and dispatches-exports of ships and aircrafts.
- (2) From this issue onwards, the data on imports and exports of the bilateral trade with the United Kingdom are included in the relevant data on trade with Third Countries, given that the United Kingdom is now a non-EU country. In order to ensure comparability of the relevant statistics over time, the time series have been reproduced with the United Kingdom being included in Third Countries.

### Arrivals - Imports, including oil products (in bil. €)

<sup>(2)</sup> International Trade in Goods Statistics have been revised for the years 2010 -2018. The revision of the relevant data series was implemented by virtue of EU Regulations 96/2010 and 113/2010. The revision concerns the products under section "Machinery and transport equipment" of the Standard International Trade Classification (SITC 7), especially the arrivals-imports and dispatches-exports of ships and aircrafts.

### Dispatches - Exports (%), 2020

General remark: Wherever necessary, the data have been rounded up, thus, a

slight difference may occur between the sum of the figures and their total.

(1) The countries are ranked in descending order according to the imports and exports, respectively, of 2010.

- \* = Provisional data.
- $\cdots$  = No data available.
- (1) School expectancy corresponds to the expected years of education over a lifetime and has been calculated adding the single-year enrolment rates for all ages from the age of 5 years and over. To illustrate the meaning of school expectancy, let us take an example: school expectancy for the age of 10 would be one year, if all 10-year-old students (in the year of the data collection) were enrolled. If only 50 % of 10-year-old students were enrolled, school expectancy for the age of 10 would be half a year.
- (2) Until 2012, the survey was conducted in accordance with the International Standard Classification of Education ISCED 1997, From 2013 onwards, the survey is conducted in line with ISCED 2011.
- (3) Definition differs.
- (4) Break in timeseries.
- (5) Estimates.

Total of offenders(3)

Offenders per 100,000 inhabitants

Crime statistics refer to offences committed during the year, either misdemeanors or felonies (prosecuted "ex proprio motu" or upon indictment) for which the Regional Departments of the Hellenic Police have conducted a preliminary investigation or submitted a lawsuit or indictment against the relevant offenders (principal perpetrators or accomplices). In the case of multiple offences, all the offences are stated separately and in the case of accomplices, abettors, etc. all those who participated in the offence are stated separately.
