## PREFACE

The National Statistical Service of Greece (N.S.S.G.) is according to its institutive law responsible of following up and applying the international standards which are used for the collection, processing, presentation and analysis of statistical data.

In this frame the N.S.S.G. develops and publishes statistical classifications adapted to the greek reality.

The new revised national statistical classification of economic activities, called STAKOD–03, is derived from the corresponding classifications of the United Nations (ISIC Rev. 3.1) and European Union (NACE Rev. 1.1). It will be implemented by January 1st 2003, in replacement of the previous one, STAKOD–91.

The present classification, apart from its statistical use, can also support other administrative works requiring classification by branch of economic activity.

*Athens, 2002*

*Nickolas E. Karavitis  
Secretary General  
of the National Statistical Service of Greece*

## INTRODUCTION

The Greek statistical classification of economic activities (STAKOD<sup>(1)</sup>) provides the frame, in national level, for the collection, tabulation, presentation and analysis of statistical data by branch of economic activity. It contributes to the uniform presentation and comparison of data collected from various sources, public or private.

STAKOD was last revised in 1991 (STAKOD – 91 or GRIC<sup>(2)</sup> – 91). STAKOD – 91 was based on the revised version of NACE<sup>(3)</sup> 1970 (NACE Rev.1), which was developed in 1990 by a working group with the participation of Eurostat and representatives of the Member States. The present revision of STAKOD to be implemented by January 1st 2003 (STAKOD – 03) is based on NACE Rev.1.1, which is a minor update with no significant restructuring of NACE Rev.1 completed by Eurostat in 2001.

The creation of STAKOD–03 was considered necessary in order:

- i. to include the changes in the structure of some branches of economic activities since the year of the last revision,
- ii. to include new activities which did not exist when STAKOD–91 was created,
- iii. to exclude old activities that no longer exist, and
- iv. to correct deficiencies or lack of data of STAKOD–91.

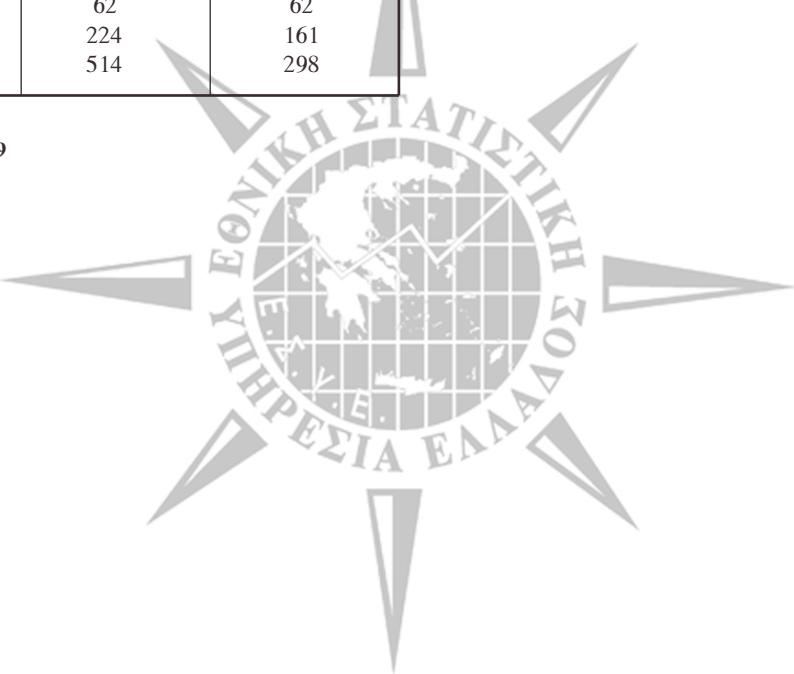

The classification system of STAKOD–03 does not differ from that of STAKOD – 91. Several factors have been taken into account for the classification of statistical units in branches of economic activity, such as: the type of the production process, the main inputs used for the production, the destination of produced goods etc. The above factors are pointed out either at heading level of the branch, or in the explanatory notes, where a summary description of the activities included is given.

STAKOD – 03, like STAKOD – 91, is an hierarchically structured 4-digit classification system in close relation with NACE Rev.1.1. However, some 3-digit and 4-digit branches of NACE Rev.1.1 were disaggregated, where necessary, in order to satisfy national needs. Each disaggregated level of NACE Rev.1.1 fully corresponds to the levels of STAKOD – 03, which were created in the national nomenclature. STAKOD – 03 comprises 17 categories of activities which are characterized by the letters A – II of the Greek alphabet. Some categories are subdivided into sub-categories, by adding a second letter of the Greek alphabet. That is the case of «Mining and quarrying» (Category Γ) and «Manufacturing» (Category Δ), where 2 and 14 sub-categories exist, respectively. STAKOD – 03 and STAKOD – 91 have exactly the same number of categories and sub-categories.

The number of 2-digit, 3-digit and 4-digit branches of STAKOD – 03 amounts to 62, 227 and 564, respectively. The corresponding numbers of STAKOD – 91 are 60, 225 and 536. In the 4-digit codes of STAKOD – 03 there is a full stop between the third and fourth digit as a kind of distinction between STAKOD – 03 and NACE Rev.1.1 — the 4-digit codes of NACE Rev.1.1 have a full stop between the second and third digit. The digit «9» is used as last digit of the 4-digit codes of STAKOD – 03 in the branches of «other activities», that is activities not belonging to any of the remaining 4-digit branches of a specific 3-digit code. The digit «0» is used as last digit of the 3-digit and 4-digit codes of STAKOD – 03 when for a specific 2-digit branch a single 3-digit or 4-digit branch exists.

The following table contains subdivisions of STAKOD – 03 and the corresponding ones in NACE Rev.1.1 and ISIC<sup>(4)</sup> Rev.3.1.

	STAKOD–03	NACE Rev.1.1	ISIC Rev. 3.1
Categories	17	17	17
Sub-categories	16	16	-
2-digit branches	62	62	62
3-digit branches	227	224	161
4-digit branches	564	514	298

Given that the NACE Rev.1.1 does not substantially differ from NACE Rev.1, there are little differences between STAKOD – 03 and STAKOD – 91.

At category and sub-category level the main difference is the extension of category O «Private households employing domestic staff and undifferentiated production activities of households for own use», by the addition of 2-digit branches 96 «Undifferentiated goods producing activities of private households for own use» and 97 «Undifferentiated services producing activities of private households for own use».

At 2-digit branch level, besides the addition of 2-digit branches 96 and 97 in the category O of STAKOD – 03, there is also:

- a small change in the content of 2-digit branches 14 and 26 due to the movement of an activity having a 4-digit code from the first to the second branch,
- a small change in the content of 2-digit branches 34 and 35 due to the movement of an activity having a 4-digit code from the second to the first branch,
- a small change in the content of 2-digit branches 64 and 74 due to the movement of an activity having a 4-digit code from the first to the second branch, and
- an equally minor change in the content of 2-digit branches 92 and 93 due to the movement of an activity having a 4-digit code from the first to the second branch.

Furthermore, at 3-digit and 4-digit branch level, the following changes will be implemented in STAKOD – 03, in comparison to STAKOD – 91:

- a further breakdown of 3-digit branches 011, 012 and 013,
- the addition of a particular 4-digit branch in the 3-digit branch 153,
- the deletion of 4-digit branch 273.9 and inclusion of its activities in the branch 271.0,
- a further breakdown of 3-digit branch 294,
- a further breakdown of 3-digit branches 401 and 402,
- the addition of a particular 4-digit branch for the activity «Wholesale of sports goods» in the 3-digit branch 514,
- the replacement of 3-digit codes 516 and 517 by codes 518 and 519, respectively, for harmonization reasons with NACE Rev.1.1, and a further breakdown of branch 518 compared to that of the previous one, 516,
- the addition of two particular 4-digit branches, for the «Retail sale of telecommunication equipment» and the «Retail sale of other office machinery and equipment»,
- a further breakdown of 3-digit branch 722,
- a further breakdown of 3-digit branch 900,
- a further breakdown of 3-digit branch 922,
- the inclusion of the «activities related to sport or recreational fishing» in the 4-digit branch 926.9 instead of branch 927.2 of STAKOD – 91, in which it belonged,
- the addition of 3-digit branches 960 and 970 and 4-digit branches 960.0 and 970.0, as a consequence of the addition of 2-digit branches 96 and 97 in STAKOD – 03,
- the replacement of 4-digit codes 293.2, 362.2, 527.3, 671.3 and 927.2 of STAKOD–91 by codes 293.9, 362.9, 527.9, 671.9 and 927.9, respectively, given that these codes have been assigned to branches of «other activities».

This publication contains a full correspondence of STAKOD – 03 with NACE Rev.1.1 and ISIC Rev.3.1 and a two-way correspondence of STAKOD – 03 with STAKOD – 91, at 2-digit, 3-digit and 4-digit branch level as well.

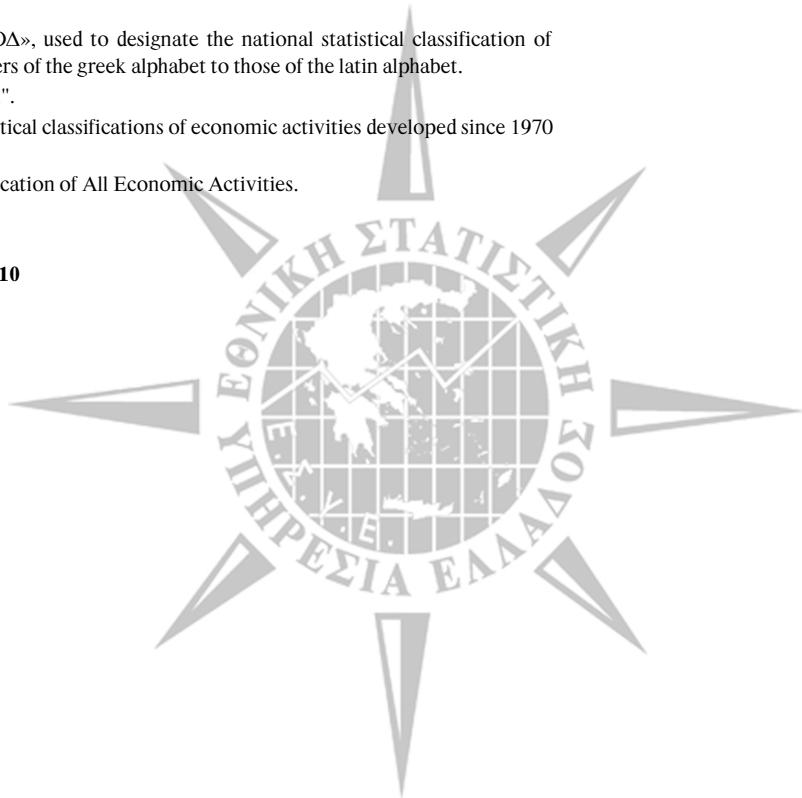

---

(1) STAKOD is derived from the greek acronym «ΣΤΑΚΟΔ», used to designate the national statistical classification of branches of economic activity, by corresponding the letters of the greek alphabet to those of the latin alphabet.

(2) GRIC is derived from the "Greek Industrial Classification".

(3) NACE is the acronym used to designate the various statistical classifications of economic activities developed since 1970 by the European Union.

(4) United Nations' International Standard Industrial Classification of All Economic Activities.
